About IMILAB

IMILAB is not just another company focused on smart home gadgets. We are parents and family members, business owners, and homeowners. Because we understand the value of our properties and the vital need to protect them, we developed easy-to-use security cameras, offering all the tools needed to keep your loved ones and guests safe. Established in April 2014, we ensure our products' quality by personally designing, developing, and upgrading all unique features. We do this with the understanding that security is not a product but a fundamental necessity.

We aim to Redefine a More Secure Life

Our mission is simple: We want to keep your family, property, and neighborhood safe. We're also passionate about providing customers access to high-quality, smart home products at affordable prices.

We started IMILAB to build a more secure home with wisdom as the starting point, based on high-tech enterprises in the field of smart homes. We work with our partners to make the latest technology that serves every family and creates a happy home life.
